EMPLOYMENT HISTORY:

Current Occupation: Health and Safety Consultant

March 2009 to present. **JNC Safety Services Ltd**

My work duties include visiting Clients' premises to carry out site inspections, scaffold inspections and providing advice on how to comply with current legislation.

Investigating Accidents / Dangerous Occurrences, carrying out "on-site" induction training and Tool Box Talks also form part of my duties within JNC Safety Services Ltd. Further to the duties listed above I am also part of the training team at JNC Safety Services carrying out training in such subjects as manual handling, general safety awareness training and exam invigilation.
The client base that I currently work within includes, National House Builders, Ground Workers, Local Building Contractors and Warehouse facilities.

July 2008 to March 2009 **BP Keast and Sons Building Contractors Ltd** **Carpenter Foreperson**

Working site foreperson for a family run building contractor/developer.
I was responsible for the day to day running of contracts including the compilation of site specific risk assessments, method statements for all construction activities, tool box talks, site inductions, and the ordering of materials.
Other duties included the inspection of scaffolding, plant, electrical tools and the safety of the employees who were working under my supervision.

July 2000 to July 2008 **Darren Healey Building Contractors Ltd** **Carpenter/Foreperson**

I started my career with Darren Healey Building Contractors Ltd as an apprentice carpenter in July 2000.
Upon completion of my apprenticeship in 2003 I continued to progress within the company by mentoring apprentice students and completing the 5 day Site Supervisors Course along with a Four Day First Aid Course, at JNC Safety Services Ltd.
This then led to me becoming a working foreperson on small to medium sized contracts responsible for the day to day management of the site including Health and Safety.
Duties included the compilation of site specific risk assessments, method statements for various construction activities, tool box talks, site inductions, and the inspection of scaffolding, plant and electrical tools on a weekly basis.

May 1999 to July 2000 **Woolworths Plc** **Sales Assistant**

Whilst working for Woolworths Plc my duties included stock taking and general sales assistant.
This involved working with members of the general public and handling of money and credit/debit cards on a daily basis.
